

MobileMic Pro™ Dictation

Wherever the World Takes You,
Simply Dictate

Working in the law enforcement industry, you need to create thorough documentation to provide reliable evidence to support your case. This documentation can include recordings of incident or arrest reports, on-site interviews, statements, summaries, and other content crucial to your work.

Unfortunately, this can result in time spent typing into a computer or grappling with handwritten notes. MobileMic Pro Dictation simplifies paperwork and saves valuable time so you can focus on managing more important duties.

What is MobileMic Pro Dictation?

With MobileMic Pro Dictation, you can turn your smartphone into a microphone that lets you create secure, high-quality recordings anywhere, anytime, for any reason. The application-based workflow solution is available both online and offline, making it accessible no matter your working environment.

Once captured, the recording is automatically sent to NetScribe™, powered by aiAssist™, for timely and accurate transcription services. This CJIS compliant process ensures that your evidentiary content is fully protected by our enhanced security protocols, reinforcing confidentiality standards, including the secure management of data via a secure government cloud such as Azure or Amazon Web Services. Our highly skilled, professional transcription team can accurately transcribe recordings, delivered to you on time, with a 98.8% accuracy guarantee.

-  **Secure** – Employs CJIS compliant data transfer encryption, device authentication and chain of custody tracking
-  **Mobile** – Audio capture that supports your documentation workflows, in the office and on the go
-  **EASY** – Supports “one-tap” recording and multiple turnaround options to get you up and running quickly
-  **Reliable** – Capture high-quality recordings online or offline, and if needed, review and append your recording within the app
