

Automating Dental Clinical Operations with AI

Personalize the patient experience, automate the work

Confido analyzes structured and unstructured data in your dental EHR and other systems to deliver personalized experiences that patients love. At the same time, Confido eliminates phone calls, and manual data entry for your staff, saving numerous hours of repetitive work.

The result: simplified care for patients, the elimination of burdensome manual work for caregivers, and improved financial health.

Appointment Management

24/7 Live Front Desk

✓ New Bookings

Forget missed calls. Our AI agent works off hours, ensuring that you don't miss any calls & assisting you in converting them to new bookings.

✓ Rescheduling

By using AI-based calls & messaging to confirm, modify, & cancel, appointments are well-managed, offering the possibility to have zero no-show rate.

✓ Reminders

Your staff doesn't have time to make multiple follow-up calls, especially when patients don't answer. AI can send as many reminders as needed & even attend voice mails.

25%

More bookings as managed by AI

50%

Reduction in no shows

Registration & Intake

Automate Paperwork

✓ Intake Forms

AI can collect info needed to fill out paperwork & ensure it is entered in relevant fields in the EHR.

✓ Payment Collection

Collections become easy. We integrate with your payment portal & conduct follow-ups to ensure all fees are paid.

✓ Verify Insurances

Let AI verify patient insurance, saving your staff valuable time.

50%

Less time spent by the staff to handle these tasks

90%

Staff reported less burnout due to offloading these repetitive tasks

Reviews & Surveys

Driving Referrals

✓ Reviews

Every business thrives on customer reviews. Collect post-visit reviews without using staff resources.

✓ Surveys

Use AI to send survey links to patients & gather valuable post-visit data.

✓ Reputation

Our agents can generate case studies from reviews which can generate SEO & leads for your business, increasing organic reach.

2x

Referrals from month 2 itself

3x

More organic traffic due to better reputation management

Care Coordination

Pre & Post Procedure Support

✓ Preparation

Based on the appointment type, AI would personalize interactions to prepare patients before their upcoming procedure, help them get clearances etc.

✓ Recovery

Post-discharge, AI would follow up regularly to assist patients in scheduling follow-up visits, & ensure medication & care plan adherence.

✓ FAQs

We save a lot of staff time by answering repetitive questions on your behalf & triage medical questions to relevant staff members.

"With Confido's solution we don't have to worry about missing any calls when we are not in the office. In fact their AI agents ensure all our patients are well supported throughout"

- Jacob Zitterkopf DDS MSD
