

PRESS INFORMATION

February 11, 2016

CINCINNATI, OH – For the fourth consecutive year (2012, 2013, 2014 & 2015/2016), Dolbey was named Best in KLAS for Speech Recognition. Dolbey earned this year’s 2015/2016 Best in KLAS award for its patented Fusion SpeechEMR® front-end speech software. Dolbey’s back-end speech product, Fusion Speech®, also earned the 2015/2016 KLAS Category Leader award for the Speech Recognition, Back-End category for a second year in a row. Dolbey’s Fusion Suite™ includes speech recognition, dictation, transcription, core measures and coding solutions.

This year’s Best in KLAS and KLAS Category Leader awards recognize Dolbey’s continued success as a leading healthcare solutions provider based upon the most important yardstick – its satisfied customers. These customers praise both the robust Fusion speech recognition solutions and Dolbey’s technical implementation and support services. (The following are selected commentaries that may not represent the whole of provider sentiment related to this product or service. Visit KLASResearch.com for a complete view.)

“We have great communication with Dolbey. What makes them so excellent is that they are proactive and responsive to our needs. They communicate about improvements and new products. The service of the company through which we purchased Fusion SpeechEMR is fantastic.” (Analyst/Coordinator, March 2015)

“Using Dolbey Fusion SpeechEMR, we were able to bring our transcription in-house and reduce our staff by five FTEs. We are pleased with that.” (Director, March 2015)

Speech recognition continues as the focal point of Dolbey’s Fusion Suite of products. Dolbey brings the power of speech recognition to transcription and integrates with major EMR/EHR, radiology, pathology, physician practice and ED software. These award-winning products deliver robust documentation tools to providers, enhancing patient care, efficiency and regulatory compliance.

About Dolbey
